

## Neustädter Markthalle

*always worth a visit!*

Between Pfundsmolkerei and the Golden Horseman, not far from the Dreikönigskirche you have the opportunity to experience Dresden from its very rustic side.

Big windows flooded with light, wrought-iron handrails, beautifully artistic iron stairways and lamps originating from the Gründerzeit are not only a feast for the eyes but create a special ambience that invites you to take your time and look around.

## Experience the diverse world of the Neustädter Markthalle.

Restaurants and cafés, regional traders selling fresh products, vendors of herbs and spices, coffee and tea all invite you to savour your day as well as a KONSUM for your every need.

However, you won't only discover gastronomic establishments. Unique toys, gift ideas, wellness products, leather goods and textiles also contribute to a successful shopping experience.
